

Overview

Ashly Audio is seeking a Software Engineer to develop, validate and maintain software for network audio amplifiers, digital signal processors, remote-control devices and network audio interfaces.

Responsibilities

- Assist with control system software development for Windows OS, Mac OS, and Linux OS
- Research and design new software features, device drivers and applications for embedded Linux platforms
- Create documentation, flow charts and system models for software designs
- Design and implement software using C, C#, Python, JS or other languages as necessary, using modern design practices and techniques
- Define test plans and develop test automation projects to effectively validate code designs
- Work with hardware engineers to understand system integration requirements
- Work with technical support staff to investigate and correct reported bugs or deficiencies
- Other duties as assigned

Qualifications

- Must be a team player, willing to collaborate and share ideas with other engineers
- Bachelor's degree in Computer Science or Computer Engineering, or equivalent education and experience
- 2+ years of commercial software development experience
- Proficiency with C, C++ or C# programming languages
- Experience with one or more scripting languages, such as Perl and Python
- Familiarity with Node.JS, MySQL and JSON is desired
- Experience with Linux on PC and embedded platforms is highly desired
- Proficiency with Ethernet TCP/IP network programming
- Experience with one or more of the following:
 - Graphical User Interfaces
 - Network-related programming (such as client/server applications, asynchronous processing).
 - Designing and implementing communications protocols.
- Familiarity with USB protocol, messaging and stream pipes is a plus
- Familiarity with DSP, machine learning or neural networks is a plus
- Experience with the use or design of professional audio products is a plus
- Excellent written and verbal communication skills

Location

Ashly Audio, Inc.
847 Holt Road, Webster, NY 14580
